

SIVA PANDIAN C

Software Developer

Madurai, Tamil Nadu, India 625002 | +91 6374972841 | sivapandianc218@gmail.com

PROFESSIONAL SUMMARY

Software Developer with 4 years of experience designing, developing, and maintaining backend and frontend components for enterprise web applications. Skilled in C#, ASP.NET Web API, Angular, Angular JS, React JS, and Microsoft SQL Server, with hands-on experience building RESTful APIs, stored procedures, and reporting solutions (SSRS, SSIS). Experienced in requirement coordination, client communication, technical design documentation, and on-time delivery across logistics and quality-management platforms.

TECHNICAL SKILLS

- Programming Languages: C#, C, SQL
- Web & Frontend Technologies: ASP.NET Web API, Angular, Angular JS, React JS, Microservices
- Database & Reporting: MS SQL Server, SSRS, SSIS, Stored Procedures
- Development Tools: MS Visual Studio 2019, MS Visual Studio Code
- Practices: RESTful API Development, Technical Design Documentation (TDD), Requirement Traceability Matrix (RTM), Unit Testing, Agile Coordination

WORK EXPERIENCE

Larsen & Toubro Limited (L&T) — Software Developer

Jul 2025 – Jul 2026

Projects: Wesmart, Quality Sanyog

- Developed and maintained Wesmart, a logistics application supporting contract management and the bidding process for construction projects, shipment tracking of construction materials, and invoicing of equipment costs.
- Built and enhanced Quality Sanyog, L&T's enterprise digital platform for end-to-end tracking, monitoring, and management of quality across construction and engineering projects.
- Enabled site engineers to log quality deviations and conduct 100% inspections through platform features designed for rapid data capture and reporting.
- Coordinated with project managers and cross-functional teams to enable rapid issue resolution and continuous quality improvement.
- Developed backend services and APIs using C# and ASP.NET Web API, and contributed to frontend development using Angular.
- Designed and optimized stored procedures and SQL queries to support core application workflows and reporting requirements.

Cognizant | Team Computers (Client: CareData Infomatics) — Software Developer

Prior Experience

Project: World Vision – Digital Platform (Wesmart Logistics)

- Coordinated with the team across all project scenarios to gather requirements and ensure on-time delivery.
- Developed various RESTful APIs using C# and ASP.NET Web API, and occasionally contributed to frontend development tasks.
- Developed stored procedures, coding functions, and reports for complex modules including Logframe, Budgeting, ITT Monitoring, and Sponsorship using SQL Server, SSRS, and SSIS, gaining strong business and technical knowledge across modules.
- Worked on Technical Design Documents (TDD), Requirement Traceability Matrix (RTM), and unit test case documentation for each delivery cycle.

- Used MS SQL Server, MS Visual Studio 2019, MS Visual Studio Code, SSRS, Angular, Angular JS, and ASP.NET Web API as core tools and technologies.

EDUCATION

Bachelor of Engineering — Meenakshi Sundararajan Engineering College

2017 – 2021

- GPA: 7.96 / 10.0
- Project: Comparative Research Study of Various Motors Used in Electrical Vehicles

Higher Secondary — C.E.O.A MAT. HR. Sec School

2015 – 2017

CORE COMPETENCIES

- Effective Communication and Client Knowledge Transfer (KT), with the ability to work under pressure
- Teamwork and cross-functional coordination to ensure on-time delivery across all project requirements

LANGUAGES

Tamil, English, Hindi, Japanese

DECLARATION

I solemnly declare that all the above furnished information is true and correct to the best of my knowledge and belief.
